It offers a range of piano samples to use as a starting point when creating your own songs and melodies. Introduction [#Sec1] ===== Many people who are interested in learning how to play the piano have already learned a few chords and maybe a song or two. Most will be more interested in taking the next step and start learning how to play their favorite songs that they heard in the radio, on Spotify, or Youtube. But for most people, this is often a big leap that is not easy to learn. With PianoTeq, you will have all the tools and skills you need to go from learning a few chords to having a song you created on your computer and play it in front of a crowd. The piano is usually the first instrument you learn to play as a kid. Then you practice and start improving over the years. By the time you are older, you have learned a few songs, but you still need more skills. You will need to learn how to hold the keys down, how to practice and train your fingers and also how to perform in front of other people. You can download PianoTeq to your computer and have all the tools you need to get started. Using PianoTeq will help you to become a better piano player by giving you the best opportunity to practice on your own and at the same time learn to perform in front of others. PianoTeq was inspired by the PianoTEKO virtual instrument by Rodrigo Morales (I which we felt was far too complicated and difficult for a beginner to use. We decided to create an easier to use alternative that not only provides you with the tools you need to create songs or melodies, but also the features to become a better player. PianoTeq is available for all platforms. You can download it and install it for free on your computer. You can play it, record and share your songs and melodies with others.
